Introducing South Yorkshire

Our County

South Yorkshire consists of four metropolitan boroughs- Barnsley, Doncaster, Rotherham and Sheffield. The county's current population is 1.375 million.

South Yorkshire's population is dispersed over an area of 1,552 square kilometres. Our population density remains at 886 people per square kilometre compared with an average for England of 278 people per square kilometre.

The area that we cover and the locations of our Fire Stations are shown below:

As a metropolitan county, South Yorkshire has the usual mix of risks associated with large, urban areas. Our risks include sports stadia, shopping centres, various 'Control of Major Accident Hazard' (COMAH) sites, high rise buildings and historic buildings. Our population density is more than double the average for England, with significant areas of deprivation and inequality spread across the four local authority areas.

We use information to identify the people, areas and groups that are more likely to be at risk from fire and other emergencies. This allows us to use our resources as effectively as possible to reduce risk in the community. In particular, we use data relating to deprivation, age and lifestyle to inform our decision making.

Diversity is considered within our Diversity in the Community Handbook. SYFR has a duty to understand the needs of its communities and the barriers they may face in accessing our services. We are focused on supporting communities and individuals to prevent and keep themselves safe from fire and other emergencies, as well as providing an effective response service to all communities.

STATEMENT OF ACCOUNTS 2022/23

Our [Community Risk Profile](#) explains how the risk of fire is different for different parts of South Yorkshire.

Managing risk is not as simple as just counting the number of incidents we attend and putting fire stations in the places where we are busiest. There are a wide variety of different factors that we must consider when deciding how best to deliver our service to local people. The following map is not a literal representation of all the risks in South Yorkshire, it offers a flavour of the different things we must think about when providing our service – from motorways, sports stadiums and shopping centres to moorlands and stately homes.

STATEMENT OF ACCOUNTS 2022/23

Introducing South Yorkshire Fire & Rescue Authority

Who We Are

South Yorkshire Fire and Rescue Authority is a statutory body that was established in 1986 following the abolition of South Yorkshire County Council and is made up of **12 local Councillors** from the District Councils of Barnsley, Doncaster, Rotherham and Sheffield and the South Yorkshire Police and Crime Commissioner.

The **primary responsibilities** of the Authority are laid down in legislation including the Fire and Rescue Services Act 2004, Civil Contingencies Act 2004 and the Local Government Act 1999 to provide an effective, economic and **efficient Fire and Rescue Service**.

The Authority funds **South Yorkshire Fire and Rescue Service** and works with the **Chief Fire Officer**.

Further information on the Authority's **Constitution** can be found on the Authority's website and via the link below:

[The Authority's Constitution](#)

Local Councillors (The Authority)

Local Councillors are elected by the community to decide how the **Authority** should carry out its various activities. They represent **public interest** from the respective 4 South Yorkshire districts.

A list of current **Councillors** that form the Authority can be found on the Authority's website and via the link below:

[Councillors](#)

Details of **the Authority**, and **other committees**, including decisions / reports can be found on the Authority's website and via the link below:

The Senior Management Team in place during 2022/23 is shown at the link below:

[Senior Management Team](#)

STATEMENT OF ACCOUNTS 2022/23

Our Strategy

All fire and rescue authorities must provide a plan which sets out the steps they will take and resources they need to improve public safety, reduce fires and save lives. This is known as a Community Risk Management Plan (CRMP). Our latest plan was published in January 2023, following extensive consultation with the public.

We have undertaken a process to consider the whole range of foreseeable fire and rescue related risks and developed this plan to explain how we plan to protect our communities and respond to emergency incidents.

The issues and changes described in this plan have been considered alongside similar strategic plans produced by our partners including those of our local authority partners, public health agencies and the South Yorkshire Police and Crime Commissioner's Police and Crime Plan.

In addition to this, an Annual Service Plan 2023/24 was approved and published in January 2023. This was designed to identify the service's short and medium-term priorities.

OUR STRATEGIC & OPERATIONAL PLANS

<http://www.syfire.gov.uk/performance/strategic-plans/>

Our overarching aim is to Make South Yorkshire Safer and Stronger, to achieve this we will deliver the following key services:

PREVENTION - To raise awareness of the risks people face from fire and other types of emergencies. This will focus on those most vulnerable, and our focus is on education and early intervention to prevent emergencies from happening.

PROTECTION – To promote and enforce fire safety arrangements in buildings that fall within relevant legislation. This is to ensure buildings and occupants are as safe as possible.

RESPONSE – To have trained staff ready and able to respond to a variety of emergency situations, equipped with the best vehicles and equipment to do their jobs as effectively as possible.

RESILIENCE – To deal with major emergencies that demand significant resources or required the support from other services and agencies, whilst continuing to deliver business as usual activity across the county.

Where are we Going?

We have worked with our staff to develop a new, long-term vision which explains how we aspire to become a leading fire and rescue service.

STATEMENT OF ACCOUNTS 2022/23

OUR STORY – clearly sets out our established objective of ‘making south Yorkshire safer and stronger’. It also explains the behaviours we expect our staff to display, regardless of rank or role and describes our aspirations for the future. Together, it all forms an essential part of everything we do.

Making South Yorkshire Safer & Stronger –Everything we do should be delivered with:

STATEMENT OF ACCOUNTS 2022/23

The published Annual Plan describes our priorities for the next 12 months. We will be focusing on the following areas:

OUR SERVICE PLAN PRIORITIES

Efficiency

The service faces significant financial challenges over the next few years, including cost pressures caused by energy prices, inflation and increased wage costs.

At the same time, we know there are inefficiencies which are costing the service money which might better be spent elsewhere. Inefficiency also contributes to issues around operational staffing and fire engine availability.

We therefore intend to **identify and remove inefficiencies across the service and prioritise our capital spending where it is most needed.**

This is about making the service as financially sustainable as possible, so that it is best placed to meet uncertain financial challenges in the future.

In 2023/24 we will:

- Identify inefficiencies and prioritise
- Review our capital spending programme
- Assess all non-pay budgets to identify revenue savings where possible

Sustainability

Sustainability benefits are not only environmental.

That's why we want to **reduce waste of goods, energy, fuel and other resources across the service.**

If done properly, we expect this to support our priority around financial efficiency, as well as contributing to our green objectives- including our commitment to be carbon net zero by 2040.

In 2023/24 we will:

- Identify areas of greatest waste and develop plans to reduce these
- Analyse our energy use and put plans in place to reduce it where appropriate
- Begin to implement the service's green plan

Leadership

Good leaders help to set the culture, drive performance and develop others.

We've made strong progress in offering development programmes for senior leaders, such as the Executive Leadership Programme, and we support moves by the National Fire Chief's Council to develop a national leadership programme for the sector.

However, we recognise that we must also urgently **prioritise leadership development for junior supervisory managers**- including Watch and Crew Managers and corporate team managers.

This important group of staff represent our future leaders and they are also fundamental to creating a positive workplace culture where everyone can thrive.

In 2023/24 we will:

- Review our existing development pathways for junior officers and supervisory managers
- Develop a revised leadership development offer to this important group of staff
- Further support the development of sector leadership programmes at a national level

Performance information

We've already improved the way we provide data to our staff, with new tools available to access and analyse real-time information.

However, this improved data is not yet fully utilised to drive performance and set priorities at a station or team level.

We want to change this to support the continual improvement of our service delivery, improve productivity and to ensure our work is targeted where it is most needed.

In 2023/24 we will:

- Better use real time data and intelligence to inform decisions of leaders and drive improvements across the service
- Improve staff understanding of Orca and the ways it can support their work
- Establish forums to better scrutinise the service's performance at a strategic level
- Better use data to inform local plans, performance measures and frontline work

Inclusion, diversity and culture

Equality, diversity and inclusion remains a major area of focus for the service and we've already made good progress- but culture reviews in other parts of the country highlight that there is still much for us to do.

However, we believe there is still more to be done to create an inclusive culture, whilst our workforce still does not adequately represent the communities we serve.

We want to **embed inclusion across the service so all staff can thrive and ensure positive action is translating into genuine recruitment outcomes.**

In 2023/24 we will:

- Implement commitments we made to the Fire Authority following London's independent culture review
- Identify and implement better support for neurodiverse staff and those with disabilities
- Further empower staff networks to help us drive workplace improvements
- Set realistic goals for positive action initiatives across all recruitment areas
- Establish a corporate induction programme to further support inclusion
- Continue our improvement journey around staff wellbeing support, including embedding investment in Occupational Health and compliance with our requirements around employee health screening

Service delivery improvements

Our previous commitment to **ensure the outstanding delivery of our core services- prevention, protection, resilience and response**- remains.

Much of our work in this area is already captured elsewhere- such as the strategies for each function, or our service improvement plan. However, we want to prioritise certain things to drive improvement at a strategic level.

In 2023/24 we will:

- Implement our action plan around incident ground contaminants
- Improve the resilience of our emergency response vehicle fleet
- Quality assure our prevention and protection work at a local level to ensure it is meeting the needs of our communities
- Further align our protection work to local risk
- Use the Specialisms Programme to drive further improvements
- Improve on-call availability
- Improve operational learning and debriefing
- Progress National Operational Guidance implementation
- Improve interoperability via cross border exercises
- Ensure operational risk information is relevant and up to date

Our 2022/23 Corporate Performance

2022/23 Revenue Budget Management Overview

Executive Overview:

The Authority approved a budget for 2022/23 with a small surplus of £0.950M as a result of a one-off service grant. The forecast net revenue budget was **£57.877M** and corporate funding was **£58.827M**.

Actual revenue expenditure for the year was **£59.234M**, when compared to the final funding balance of **£59.473M** results in a surplus of **£0.239M**, however planned contributions to reserves of £0.950M and Grant Income Received in Advance of £0.246M reduces this position to a deficit of **£0.517M**

Contributions from reserves to support areas of revenue expenditure were: £0.177M from the Insurance Reserve, £0.183M from the Safer, Stronger Communities Reserve, £0.166M from the Service Improvement Reserve, £0.025M from the Budget Carry Forward Reserve, £0.232M from the Revenue Grants Unapplied Reserve, and £0.297M from the Immediate Detriment Reserve.

Contributions to reserves to support future revenue expenditure were: £0.561M planned contribution to the Minimum Revenue Provision (MRP) Reserve and £0.284M to the Revenue Grants Unapplied Reserve.

A contribution of £0.950M made to the Emerging Risk Reserve to support future costs of the financial implications of the pandemic and other potential uncertainties from a one-off service grant. This was offset by a contribution from the Emerging Risk Reserve of £0.416m to support the total deficit position.

Capital expenditure was £3.166M, as shown over the page of which £2.154M was funded borrowing, £0.295M from Capital Receipts, £0.557M from Capital grants, £0.100M from revenue and the remainder £0.060M from reserves.

The overall combined was total expenditure of **£59.234M** and when compared to corporate funding resulted in an overall contribution to reserves of **£0.239M**.

Individual quarterly revenue monitoring reports for 2022/23 can be accessed via the links below:

Corporate Funding

The South Yorkshire Fire & Rescue Authority received non-specific, corporate income totalling £59.473 Million in 2022/23. The table and the chart below show the respective values and proportions.

	£000s
Revenue Support Grant	8,716
NNDR	3,053
NNDR Top Up Grant	11,551
Section 31 Grant	7,091
Council Tax	29,062
Total	59,473

2022/23 Capital Programme Management Overview

Executive Overview:

Capital expenditure represents money spent by the Authority for the purposes of purchasing, upgrading, or improving assets such as buildings and vehicles. The distinction from revenue expenditure is that the Authority and its residents receive the benefit from capital expenditure over a longer period of time. The Authority spent £3.166M on capital investment during the year.

Premises Related	£M 1.933		Borrowing	£M 2.154

Total	3.166		Reserves	0.060
			Total	3.166

STATEMENT OF ACCOUNTS 2022/23

2022/23 Performance Management Overview

Our Performance

A suite of corporate level performance measures has been developed to reflect the four priority areas.

The Fire Authority's role in **improving performance** is to provide **scrutiny** and **challenge**. Quarterly and Annual Corporate Performance Reports are submitted to both the Scrutiny Board and Fire Authority Meetings to facilitate this. Corporate Performance briefings are submitted to the Corporate Management Board for review on a monthly basis.

Control of the activities contributing to the Authority's **goals** is achieved by **devolving responsibility** for those activities to the appropriate level. This allows those responsible to make clear their **planned objectives** and also to be **held accountable** for achieving them.

The Corporate Performance Management policy has its annual refresh to ensure accuracy. However, the Performance Management Framework is reviewed and updated when the CRMP is agreed. Preparation work is underway on the new CRMP, with initial draft ready for consultation in autumn 2024 and publication in early 2025.

Performance Management Framework & Targets 2021/22	22 nd February 2021	Item 14	FRA Meeting Feb 21

STATEMENT OF ACCOUNTS 2022/23

2022/23 Treasury Management Overview

Executive Overview:

Facing continued economic uncertainty, the focus of the Authority's Treasury Management Strategy for 2022/23 was on **managing risk**:

- The focus of the borrowing strategy was on reducing the Authority's exposure to **interest rate** and **refinancing risk**, whilst maintaining a small under-borrowed position in order to keep its financing costs to a minimum.
- The purpose of the investment strategy was to ensure that the Authority's cash balances were **invested prudently** and were **available when needed** to meet its spending commitments. This reflects the recommended investment priorities of **security, liquidity** and **yield** (in that order).

Borrowing Overview

As of 31st March 2023, the Authority's total borrowing stood at **£23.2M** (a net change of **£0M** in year). There was no borrowing undertaken or repaid in year.

As a result, the Authority's interest rate risk exposure has increased slightly to **27%** (**22%** as of 31st March 2022) due to a change in borrowing requirement. This means that **73%** of the Authority's borrowing requirement is being financed by long term, fixed rate borrowing (with the remainder supported by internal cash resources). This is within the Authority's target to maintain at least 70% of the borrowing requirement at a fixed rate.

Investment Overview

The Authority's investment balances decreased to **£5.2M** as of 31st March 2023 (a net decrease of **£0.9M**), primarily owing to an overall increase in costs as a result of the current economic climate.

To ensure a certain level of security and liquidity in a volatile market, the Authority moved away from short term deposits (up to 12 months) and invested more funds overnight in secure **Money Market Funds** (MMFs) and **instant access accounts**, to ensure it could continue to meet its day-to-day spending commitments.

Treasury Reporting

Other Key Components of our 2022/23 Balance Sheet

What the Authority **owns**, is **owed** and **owes** is shown below:

<u>Balance Sheet</u>		31st March 2023
		£M
<div style="border: 1px solid black; border-radius: 10px; padding: 5px; margin-bottom: 10px;"> Non-Current Assets Includes Land & Buildings and Vehicles, Plant & Equipment </div>	Non-Current Assets	58.709
	Stock	0.728
	Amounts Owed to The Authority	12.967
	Amounts Owed by The Authority	(652.730)
	Money in the Bank	5.500
	Authority Net Worth	(574.826)
<u>Financed By:</u>		
	Useable Reserves	18.657
	Unusable Reserves	(593.483)
	Total Reserves	(574.826)

[Balance Sheet](#)

Amounts Owed to the Authority include Investments and Monies in Relation to Council Tax / Business Rates

Amounts Owed by the Authority include Long Term Borrowing and Pension Fund Liabilities

Unusable Reserves are not available to fund future expenditure and include, for example, unrealised gains following the revaluation of the Authority's Non-Current Assets

Summary of the Authority's Pension Fund Position as at 31st March 2023

The Authority participates in two pension schemes, the Local Government Pension Scheme administered by South Yorkshire Pensions Authority and the Firefighters Pension Scheme, administered by the Government Actuary Department (GAD).

For both schemes, the Authority accounts for its position in accordance with IAS 19, which means that it accounts for the costs of retirement benefits when entitlement to those benefits has been earned rather than when they are actually paid to employees, which may be many years into the future. These future liabilities are to be met by fund assets which are acquired from employer and employee contributions and subsequently invested for a return.

Local Government Pension Scheme (LGPS)

As at 31st March 2023, fund asset **exceeded** fund liabilities by **£6.9M, on an accounting basis**, however IFRIC 14 places a minimum funding requirement to the measurement of the asset. This means we have a requirement to revalue the asset to nil within the accounts.

The Pension Fund position when assessed **on a funding basis** is calculated in a different way to the accounting methodology and ultimately reflects the actual performance of the Authority's Pension Fund. It is the pension fund position on a funding basis that informs the Authority's ongoing contribution rate and the employees' contribution rate. Any pension deficit on this funding basis has to be made good over time. A triennial actuarial review assesses key assumptions and agrees any changes, including any increase in employer contributions, for a subsequent 3 year period with the aim of having a **100% funded scheme** over the longer term. The latest review applies to the period 1st April 2020 to 31st March 2023.

The Authority paid the deficit payment relating to the above triennial period as a lump sum in 2020/21 to benefit from the discount offered by the Pension Fund, as opposed to paying on a

STATEMENT OF ACCOUNTS 2022/23

monthly or annual basis. 2022/23 represents the final year of recognition against the general fund.

Fire Fighters Pension Scheme

As at 31st March 2023, fund liabilities **exceeded** fund assets by **£621.7M, on an accounting basis**.

In respect of this scheme when assessed **on a funding basis**, the arrangement significantly differs from the LGPS in that Central Government covers the cost of the Fire Fighters pension scheme annually by means of a “top up” grant to the pension fund.

The GAD valuation assesses the funding arrangements for the scheme, controlled by employee and employer contributions. The data supplied from the 2020 valuation has been rolled forward for three years to 31 March 2023. As with previous reports, GAD have included a past service cost for the potential impact of the McCloud/Sargeant ruling.

Summary of the Authority’s Key Provisions as at 31st March 2023

The Authority accounts for the uncertain nature of certain transactions through provisions on its balance sheet, in accordance with the Accounting Code of Practice. The Authority has three significant provisions on its balance sheet, which are summarised below:

- **Insurance Fund:** The Authority sets aside this provision to account for the uncertain nature of both value and the timing of insurance claims which may be brought against it. The value of the provision is based on the estimated outstanding claims currently lodged with the Authority, which as at 31st March 2023 totalled **£0.2M**;
- **Collection Fund Appeals Provision:** The Authority has to account for its share of the four district authorities’ appeals provision for their expected losses to business rate appeals, which as at 31st March 2023 totalled **£0.3M**; and
- **Other:** The Authority sets aside provisions to account for the uncertain nature in value and timing of any current litigation and legal costs, which as at 31st March 2023 totalled **£0.5M**.

Summary of the Authority’s Borrowing Position as at 31st March 2023

The Authority’s **total debt outstanding** as at 31st March 2023 was **£22.334M (excluding accrued interest of £0.084M)**.

The Authority’s borrowing is undertaken in accordance with the Prudential System which provides the regulatory framework to ensure that **all borrowing is prudent, affordable and sustainable**. This comprises a suite of indicators to be adopted within the Authority’s treasury management strategy and performance reports, including an **authorised limit** for the absolute level of debt which cannot be exceeded. For 2022/23 this limit was set at **£43.188M** [including finance lease liabilities] with the Authority’s **maximum debt** in year being some **£20.854M** lower.

Summary of Key Risks Faced by the Authority

Executive Overview:

Corporate Risk is managed in accordance with South Yorkshire Fire and Rescue Authority's Corporate Risk Management Policy and Strategy.

The Corporate Risk Management Policy forms part of the Authority's Publication Scheme and is available on the Authority's website in the Document Library.

A Corporate Risk Register is used to document corporate risks and to provide an update regarding how each risk is managed.

The Risk Register recognises that the Authority has risks in its own right and therefore highlights the risks the Authority faces in seeking to achieve its statutory, strategic and operational objectives. An update regarding how each of the high priority risks are being managed is detailed in update reports to the Audit Committee, and an Annual Risk Management Report, which is considered by both the Audit Committee, and the Full Authority.

Members should be assured that the Authority's new Risk Management process is a standing item on the officer Fire Governance Board which meets quarterly, and in consultation with Risk Owners, any new, emerging or changed risks are also considered.

Risk Management forms part of the Members' Annual Learning and Development Schedule.

Revenue Outlook

The Medium-Term Financial Plan (MTFP) 2023-2026, approved in November 2022, provides a clear understanding of the financial plan until 2026. This allows the service to move forward financial forecasts in light of recent national and international developments and local circumstances.

The 2023/24 Annual Revenue Budget and Council Tax Setting report, approved in February 2023, covers the key policy considerations. With damaged public finances, one year only settlements and the ongoing review of public sector funding distribution the challenge remains to balance sparse resources against emerging risks and rising costs. The Efficiency and Productivity Plan was published in March 2023 with the services approach to ensure that future potential deficits can be reasonably managed over a period of time. Our current reserves position will allow us to cushion any significant impacts in the short-term.

Despite the extraordinary and challenging circumstances facing public services, the service is committed to providing the best possible service to the people of South Yorkshire within the resources available. Decisions regarding the CRMP, which will be updated later in the year are determined by fire risk, but ultimately, they need to be affordable and sustainable.

The MTFP captures the key and significant operating investments, some of which have already been implemented:

- Recruitment of more firefighters to enable the service to match its operational strength to its establishment posts and optimise fire engine availability on more occasions,
- Business Fire Safety – we have invested in additional posts to ensure we are able to deal with the extra demands placed across all Fire and Rescue services in this area,
- Community Safety Partnership Team – we have established these posts after successful trials to ensure we are working effectively with partners to better identify vulnerable residents and groups and to provide more targeted risk reduction activity, and

STATEMENT OF ACCOUNTS 2022/23

- Continue to invest in our infrastructure and assets e.g. new fire appliances, new firefighting kit and equipment to ensure we have the best available equipment to keep firefighters safe.

Regular Financial performance reports will continue to be submitted to relevant Authority meetings in 2023/24 and management will ensure, through robust financial monitoring that any adverse financial issues will be identified and managed appropriately. The Executive and the Authority have and will continue to put forward the need to challenge spending, deliver sustainable savings and look for opportunities to achieve the same outcomes for less through innovation or new ways of working. Equally there is a commitment to sensibly look for investment opportunities that will enable the service to more effectively deliver its service improvement and annual planning priorities.

Capital Outlook

The Authority's capital investment budget is £12.964M for 2023/24. The planned programme will see the delivery of new vehicles, major refurbishment works for a number of sites including enhancement of local training assets as well as investment in new equipment and improvements in information technology.

Our 2022/23 Statement of Accounts

The Form of the Statement of Accounts

The Statement of Accounts is a statutory publication required under the Accounts and Audit Regulations and prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2022 (the Code), published by the Chartered Institute of Public Finance and Accountancy (CIPFA). The Code specifies the principles and practices of accounting required to give a true and fair view of the Authority's financial position at the end of the year and the transactions of the Authority during the year.

The information contained in the various statements and notes are of a highly technical nature and it may be useful to refer to the technical annexes for further explanation.

The layout of the 2022/23 Statement of Accounts is comprised of:

- Statement of Responsibilities for the Statement of Accounts;
- The Core Financial Statements;
- Notes to the Core Financial Statements including The Expenditure & Funding Analysis; and
- The Supplementary Financial Statements and Notes.

These are explained in more detail below.

Statement of Responsibilities for the Statement of Accounts

This section explains the respective responsibilities of the Authority and the Chief Finance Officer (CFO) in relation to the Statement of Accounts. The Authority is responsible for ensuring that there are proper arrangements in place for financial administration, ensuring that value for money is achieved and approving the annual Statement of Accounts. The CFO is responsible for selecting and applying accounting policies, keeping accurate and timely accounting records, taking reasonable

STATEMENT OF ACCOUNTS 2022/23

steps for the prevention and detection of fraud and complying with proper accounting practice as defined by the Code.

The Core Financial Statements

[The Movement in Reserves Statement \(MIRS\)](#) – This statement shows the movement in the year on the different reserves held by the Authority, analysed into 'useable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other reserves.

The surplus or deficit on the Provision of Services line shows the accounting / economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund balance for Council Tax setting purposes. The Net Increase / Decrease before Transfers to the Earmarked Reserves line shows the statutory General Fund balance before any discretionary transfers to or from earmarked reserves undertaken by the Authority.

[The Comprehensive Income and Expenditure Statement \(CI&ES\)](#) – This statement shows the accounting cost in the year, of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this is different to the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

[The Balance Sheet](#) – The Balance Sheet shows the value of the assets and liabilities recognised by the Authority, as at 31st March 2023. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority.

Reserves are reported in two categories. The first category of reserves is usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets were sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'adjustments between accounting basis and funding basis under regulations'.

[The Cash Flow Statement](#) – The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income, or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

STATEMENT OF ACCOUNTS 2022/23

Notes to the Core Financial Statements

The Expenditure & Funding Analysis

The objective of the [Expenditure and Funding Analysis](#) is to demonstrate to council tax payers how the funding available to an authority (i.e. government grants, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the Authority's functions. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Other Disclosure Notes

There are several disclosure notes that present further detail behind the figures in the Core Financial Statements, categorised by the predominant statement that they support.

- [Notes Relating to the Expenditure and Funding Analysis](#);
- [Notes Relating to the Movement in Reserves Statement](#);
- [Notes Relating to the Comprehensive Income & Expenditure Statement](#);
- [Notes Relating to the Balance Sheet](#); and
- [Notes Relating to the Cash Flow Statement](#).

The Supplementary Financial Statements

The Pension Fund Statement - The Fire Authority administers the Firefighters' Pensions Scheme.

Changes of Accounting Policies in 2022/23

There has been no change to the Authority's Accounting Policies in 2022/23.

STATEMENT OF ACCOUNTS 2022/23

SECTION 3 - STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS

The Authority's Responsibilities

The Authority is required to:

- ◆ Make arrangements for the proper administration of its financial affairs and to secure that one of its Officers has the responsibility for the administration of those affairs. In this Authority, that Officer is the Director of Finance at Barnsley Metropolitan Borough Council (The Treasurer);
- ◆ Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- ◆ Approve the Statement of Accounts.

Signed on Behalf of the Fire and Rescue Authority by the Chair of the Audit Committee:

CLLR STUART SANSOME, CHAIR OF THE AUDIT COMMITTEE

Date: 24th July 2023

The Treasurer's Responsibilities

The Treasurer is responsible for the preparation of the Authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA / LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ('the Code').

In preparing this Statement of Accounts, the Chief Finance Officer has:

- ◆ Selected suitable accounting policies and then applied them consistently;
- ◆ Made judgements and estimates that were reasonable and prudent;
- ◆ Complied with the Local Authority Code;
- ◆ Kept proper accounting records which were up to date;
- ◆ Taken reasonable steps for the prevention and detection of fraud and other irregularities;
- ◆ Assessed the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- ◆ Used the going concern basis of accounting on the assumption that the functions of the Authority will continue in operational existence for the foreseeable future; and
- ◆ Maintained such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

I certify that the attached Statement of Accounts presents a true and fair view of the financial position of the Authority at 31 March 2023 and its income and expenditure for the year then ended.

NEIL COPLEY, BA (HONS), CPFA, TREASURER

Date: 24th July 2023

STATEMENT OF ACCOUNTS 2022/23

Adjustments From Management Accounts to Financial Reporting Format

Note A: Management Accounts as Per Final Accounts Report

This column represents the net revenue expenditure (management accounts) of the Authority, as reported to Full Authority throughout the financial year.

Note B: Items Not Included in Net Cost of Services

Adjustments for items that are not deemed, as per the Accounting Code of Practice, as service specific income and expenditure but which represent other corporate items:

- **Other Operating Income & Expenditure** – generally relates to precepts / levies that are accounted for within service budgets from a management accounts perspective but a corporate cost as per the financial reporting requirements;
- **Financing & Investment Income & Expenditure** – generally relates to corporate income and expenditure such as interest payments servicing the Authority's debt and interest receivable from its financial investments.
- **Taxation & Non-Specific Grant Income & Expenditure** – relates to non-specific grant received and accounted for within service budgets from a management accounts perspective.

Note C: Items Not Included Within the CI&ES

Adjustments that, under the Accounting Code of Practice, are not reported from a financial reporting point of view within the Comprehensive Income & Expenditure Statement:

- These adjustments generally relate to capital items such as the statutory charges for capital financing i.e. Minimum Revenue Provision and capital funded by revenue / reserves. Also included is the accounting recognition of the element of the pension deficit payment and the adjustment in relation to financial instruments.

Note D: Corporate Funding / Expenditure

This column brings in the Authority's corporate, non-specific funding for the year together with other corporate items of expenditure:

- **Taxation & Non-Specific Grant Income & Expenditure** – relates to the non-specific income that the Authority receives in year to fund its net expenditure, including Revenue Support Grant (RSG), Council Tax, Business Rates and S31 Grants.

Note E: Net Expenditure Chargeable to the General Fund Balance

This column shows the Authority's financial position in terms of its in-year movement in general fund reserve positions. These can be seen in terms of both types of reserves in [Note 4](#).

STATEMENT OF ACCOUNTS 2022/23

Note 2 - Adjustments between Funding and Accounting Basis per CI&ES

Description:	This note provides an analysis of the adjustments between the accounting basis as stipulated by the Code of Practice and the funding basis as stipulated by Legislation, per directorate. The respective adjustments are outlined in the explanatory notes in the pages overleaf.
--------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

STATEMENT OF ACCOUNTS 2022/23

Note A: Adjustments for Capital Purposes

Adjustments for capital purposes – this column adds in depreciation and impairment and revaluation gains and losses in the services line and for:

- **Other Operating Expenditure** – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- **Financing and Investment Income & Expenditure** – the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- **Taxation and Non-Specific Grant Income & Expenditure** – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non-Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Note B: Net Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 *Employee Benefits* pension related expenditure and income:

- **For Net Cost of Services** this represents the removal of the employer pension contributions made by the Authority as allowed by statute and the replacement with current service costs and past service costs. The change also includes the recognition of the pension deficit payment, relating to the year.
- For **Financing and Investment Income & Expenditure** – the net interest on the defined benefit liability is charged to the CIES.

Note C: Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:

- For **Financing and Investment Income & Expenditure** the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
- The charge under **Taxation and Non-Specific Grant Income & Expenditure** represents the difference between what is chargeable under statutory regulations for Council Tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

STATEMENT OF ACCOUNTS 2022/23

NOTES PRIMARILY RELATING TO THE MOVEMENT IN RESERVES STATEMENT

Note 3 – Adjustments Between Accounting Basis and Funding Basis Under Regulations	
Description:	This note details the adjustments that are made to the Comprehensive Income and Expenditure Statement, in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Authority to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of the Authority are required to be paid and out of which all liabilities of the Authority are to be met, except to the extent that statutory rules might prove otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Authority is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Authority is required to recover) at the end of the financial year.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land and buildings, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied

The Capital Grants Unapplied Account holds the grants and contributions received towards capital projects for which the Authority has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure.

<u>2022/23 Adjustments</u>	General Fund Balance	Capital Receipts Reserve	Capital Grants Unapplied Reserve	Movement in Unusable Reserves

			MIRS / EFA			MIRS / EFA	Balance Sheet

The purpose of each reserve held is set out below:

Usable Reserve	Purpose
• Minimum Working Balance	This reserve holds the Authority's minimum working balance that is held for any unforeseen event.
• In Year Surplus	This reserve represents the unearmarked surpluses generated in year.
• Insurance	This reserve has been created to fund future potential liabilities under current insurance arrangements.
• Revenue Grants	This reserve holds all grant income, relating to specific projects that will be utilised in future periods.
• Invest to Save	This reserve enables the Authority to target specific initiatives which will deliver future efficiency savings in excess of the initial investment.
• Budget Carry Forward	Sums earmarked to fund the slippage of specific items of revenue expenditure are carried forward into the following financial year in this reserve.
• Capital Investment Reserve	This reserve is to support the Authority's future capital investment programme.
• Service Improvement Reserve	This reserve has been set aside for future service improvement initiatives.
• Stronger, Safer Communities	The Authority had set aside reserves in support of its objectives of protecting the most vulnerable in our communities; further promoting the Community fire safety agenda; enhancing partnership working and sharing data amongst partners in order to focus resources on priority areas and individuals.
• Emerging Risk	This reserve has been created to set aside funds to address any future shortfalls in funding and other future risks.
• Immediate Detriment	This reserve has been set aside following approval by the Authority to adopt the Local Government Association and Fire Brigade Union's framework in relation to immediate detriment pension cases in advance of the legal remedy relating to the McCloud and Sargeant legal pensions case.
• MRP	The Authority has set aside reserves to pay for future years MRP charges, in line with the approved MRP Policy.
• Rates Review	Following a review of the estates by the Valuations Office refunds have been received on a number of properties. These refunds are set aside for future increases/changes.

STATEMENT OF ACCOUNTS 2022/23

Usable Reserve	Purpose
• Interest Rate Mitigation	The Authority has set aside reserves to mitigate against any future potential increase in interest costs relating to its debt.

Note 5 – Unusable Reserves	
Description:	This note provides an analysis of the Authority's unusable reserves. These reserves cannot be used to reduce Council Tax and ordinarily represent statutory accounting requirements.

[Balance Sheet](#)

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as charges for depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to an historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains on donated assets that have yet to be consumed by the Authority. The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1st April 2007, the date that the Revaluation Reserve was created to hold such gains.

[Note 3](#) provides details of the source of all transactions posted to the Account, apart from those involving the Revaluation Reserve.

STATEMENT OF ACCOUNTS 2022/23

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Authority uses the Account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred but reversed out of the General Fund balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund balance in accordance with statutory arrangements for spreading the burden on Council Tax payers.

2021/22 £000s		2022/23	
		£000s	£000s
(16)	Balance at 1st April		-
-	Premiums Incurred in the Year & Charged to the Comprehensive Income & Expenditure Statement	-	
16	Proportion of Premiums Incurred in Previous Financial Years to be Charged Against the General Fund Balance in Accordance With Statutory Requirements	-	
16	Amount by Which Finance Costs Charged to the Comprehensive Income & Expenditure Statement are Different from Finance Costs Chargeable in the Year in Accordance with Statutory Requirements		-
-	Balance at 31st March		-

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service. The liabilities recognised are updated to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed, as the Authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pension's Reserve therefore shows a substantial shortfall in benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2021/22 £000s		2022/23 £000s	
13,305	Actuarial Gains or (Losses) on Pensions Assets & Liabilities	259,057	CI&ES
(34,961)	Reversal of Items Relating to Retirement Benefits Debited or Credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income & Expenditure Statement	(37,431)	
26,161	Employer's Pensions Contributions & Direct Payments to Pensioners Payable in Year	26,090	
(869,386)	Balance at 31st March	(621,670)	

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- Revalued downwards or impaired and the gains are lost;
- Used in the provision of services and the gains are consumed through depreciation or;
- Disposed of and the gains are realised.

STATEMENT OF ACCOUNTS 2022/23

The Reserve contains only revaluation gains accumulated since 1st April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2021/22		2022/23	
£000s		£000s	£000s
8,097	Balance at 1st April		9,254
1,570	Upward Revaluation of Assets	1,331

1,461	Surplus or (Deficit) on Revaluation of Non-Current Assets Not Posted to The Surplus or Deficit on the Provision of Services		1,293
(304)	Difference Between Fair Value Depreciation & Historical Cost Depreciation	(340)	
-	Accumulated Gains on Assets Sold or Scrapped	-	
(304)	Amount Written Off to the Capital Adjustment Account		(340)
9,254	Balance at 31st March		10,207

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31st March 2023. Statutory arrangements require that the impact on the General Fund balance is neutralised by transfer to or from the Account.

2021/22		2022/23	
£000s		£000s	£000s
(165)	Balance at 1st April		(172)

(7)	Amount By Which Officer Remuneration Charged to the Comprehensive Income & Expenditure Statement on an Accruals Basis is Different from Remuneration Chargeable in the Year in Accordance With Statutory Requirements		(43)
(172)	Balance at 31st March		(215)

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax income in the Comprehensive Income and Expenditure Statement as it falls due from Council Tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2021/22		2022/23	
£000s		£000s	
(1,440)	Balance at 1st April		351

STATEMENT OF ACCOUNTS 2022/23

NOTES PRIMARILY RELATING TO THE COMPREHENSIVE INCOME & EXPENDITURE STATEMENT

Note 6 – Expenditure & Income Analysed By Nature

Description:	This note shows the Surplus or Deficit on the Provision of Services within the CIES on a subjective basis.
Relevant Accounting Policies:	Accounting Policy B

The Authority's expenditure and income is analysed as follows:

Expenditure/Income	2021/22	2022/23
	£000s	£000s
Expenditure:		
Employee Benefits Expenses	54,598	54,970
Other Services Expenses	8,856	10,469
Support Service Recharges	-	-
Depreciation, Amortisation, Impairment	2,921	3,121
Interest Payments	18,350	23,853
Disposal of Fixed Assets	-	60
Total Expenditure	84,725	92,473
Income:		
Fees, Charges & Other Service Income	(755)	(575)
Interest & Investment Income	(7)	(280)
Income From Council Tax & Non-Domestic Rates	(31,168)	(33,018)
Government Grants & Contributions	(46,526)	(46,260)
Receipts from Disposal of Assets		
Total Income	(78,456)	(80,133)
(Surplus) or Deficit on the Provision of Services	6,269	12,340

[CI&ES](#)

[CI&ES](#)

Segmental Income

Income received on a segmental basis is analysed below:

	2021/22		2022/23	
	Fees, Charges & Other Service Income	Total	Fees, Charges & Other Service Income	Total
	£000s	£000s	£000s	£000s
Fire Fighting & Operations	(755)	(755)	(575)	(575)
Total Income Analysed on a Segmental Basis	(755)	(755)	(575)	(575)

Note 7 – Revenue From Contracts With Service Recipients

Description:	This note shows the level of revenue received by the Authority from its contractual arrangements.
Relevant Accounting Policies:	Accounting Policy B

The Authority has reviewed the Fees, Charges & Other Service Income against the criteria. The definition of a contractual arrangement that has been used is one that commits both parties to their respective obligations, even if the contract is not a written one e.g. a verbal contract.

Amounts included in the Comprehensive Income & Expenditure Statement for contracts with service recipients:

2021/22		2022/23
£000s		£000s
(320)	Revenue from Contracts With Service Recipients	(311)
(320)	Total Included in Comprehensive Income & Expenditure Statement	(311)

STATEMENT OF ACCOUNTS 2022/23

Note 8 – Capital Charges to the Comprehensive Income & Expenditure Statement

Description:	The Comprehensive Income & Expenditure Statement is charged with any revaluation / impairment losses, over and above the balance on the revaluation reserve and depreciation charges. These charges are reversed out and have no impact on the Council Tax payer as per statute.
Relevant Accounting Policies:	Accounting Policy L

2021/22 £000s		2022/23 £000s
3,774	Charged to Net Cost of Services:	
144	Depreciation & Amortisation	3,169
(1,182)	Impairments / Revaluation Losses	120
185	Reversal of Impairment Losses	(886)
	Non Enhancing Capital Expenditure	718
2,921	Total Charged to Comprehensive Income & Expenditure Statement	3,121

Note 9 – Members’ Allowances

Description:	This note shows the cost to the Authority of its elected Members.
--------------	-------------------------------------------------------------------

The total sum paid to members in 2022/23 was £0.085M (£0.081M in 2021/22). The allowances are initially paid to members by their respective District Councils and are then subsequently billed to the Authority.

Note 10 – Officers’ Remuneration & Exit Packages

Description:	This note shows: <ul style="list-style-type: none"> The Senior Management Team remuneration; An analysis of other Authority employees with remuneration of greater than £50k; The cost to the Authority of exit packages given.
Relevant Accounting Policies:	Accounting Policy F

The table below sets out the remuneration disclosures for Senior Officers of the Authority (as defined in Local Authority Accounting Panel Bulletin 85) whose salary is equal to or more than £50,000 per year:

Post	2022/23						
	Period	Salary, Fees & Allowances	Bonuses	Expenses	Benefits in Kind	Pension Contributions	Total Remuneration

Note 11 – External Audit Costs

Description:	This note shows the cost to the Authority of services provided by external audit.
--------------	-----------------------------------------------------------------------------------

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Authority's external auditors:

2021/22 £000s		2022/23 £000s
27	Fees Payable to Deloitte UK LLP With Regard to External Audit Services Carried Out by the Appointed Auditor for the Year	27
-	Fees Payable in Respect of Other Services Provided by Deloitte During the Year	27
-	Fees Payable in Respect of Other Services Provided During the Year	-
-	Refund from PSAA in Respect of Retained Earnings	-
27	Sub Total – Audit Fees Payable / (Refundable)	54
-	Fees Payable in Respect of Other Services Provided by Other Audit Companies	-
27	Total	54

Note 12 – Grant & Contribution Income Recognised Through the Comprehensive Income & Expenditure Statement

Description:	Grants are recognised through the Comprehensive Income & Expenditure Statement when the specific conditions of the grants are satisfied. This note details these grants in respect of the Authority.
Relevant Accounting Policies:	Accounting Policy H

The Authority credited the following grants and contributions to the Comprehensive Income & Expenditure Statement in the year:

2021/22 £000s		2022/23 £000s
(27,160)	Credited to Taxation & Non-Specific Grant Income:	
	Non-Ring-fenced Government Grants	(27,358)
(18,522)	Gain in Relation to Government Grant Payable to the Pension Fund Account on the Authority's Behalf	(17,840)
(250)	Capital Grants & Contributions	(520)
(45,932)	Sub Total – Credited to Taxation & Non-Specific Grant Income	(45,718)

STATEMENT OF ACCOUNTS 2022/23

(594)	Credited to Services: Other Grants & Contributions	(505)
(594)	Sub Total – Credited to Taxation & Non-Specific Grant Income	(505)
(46,526)	Total Grant Income Recognised Through the CI&ES	(46,223)

Note 13 – Related Parties

Description:	This note explains the relationships that the Authority is party to including companies that the Authority has an interest in.
Relevant Accounting Policies:	Accounting Policy U
Areas of Critical Judgements Made:	Judgement 3

The Authority is required to disclose material transactions with related parties which are defined as bodies or individuals that have the potential to control or influence the Authority or to be controlled or influenced by the Authority. Disclosure of these transactions allows readers to assess the extent to which the Authority might have been constrained in its ability to operate independently or might have been able to limit another party's ability to bargain freely with the Authority.

Central Government

Central Government has effective control over the general operations of the Authority – it is responsible for providing the statutory framework, within which the Authority operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions with other parties (e.g. Council Tax bills). Grants received from Government Departments are set out in the subjective analysis in [Note 6](#) within the Amounts Reported for Resource Allocation Decisions. Grant receipts outstanding at 31st March 2023 are shown in [Note 26](#) and Grants recognised through the Comprehensive Income & Expenditure statement during the year are shown in [Note 12](#).

Senior Officers

Senior Officers within the Authority's Senior Management Team are responsible for ensuring that policies approved and decisions made by members are implemented effectively. The remuneration of senior officers is shown in [Note 10](#).

During 2022/23, no senior officers of the Authority have declared a material interest in any companies.

Members

Members of the Authority have direct control over the Authority's financial and operating policies. The total of members' allowances paid in 2022/23 is shown in [Note 9](#).

During 2022/23, no works or services were commissioned from companies with which a Member had an interest.

Other Local Authorities

All local authorities are subject to common control by Central Government. They often work in partnership with each other to provide services to the public. The Authority has a number of specific relationships / partnerships with different local authorities including where it is a member of a City Region. Details of material transactions with these local authorities are shown in the table within this note.

From 1 April 2015, Barnsley MBC took over the responsibility of the provision of advice and support to the Authority, following the disbanding of the South Yorkshire Joint Secretariat on 31 March 2015.

Other Public Bodies

South Yorkshire Pensions – Provider of pension services to the Authority.

Subsidiaries & Joint Ventures

The Authority has no interests in any subsidiaries or joint ventures.

STATEMENT OF ACCOUNTS 2022/23

NOTES PRIMARILY RELATING TO THE BALANCE SHEET

Note 14 – Events After The Balance Sheet Date

Description:	This note explains any significant event that occurs following the balance sheet date.
Relevant Accounting Policies:	Accounting Policy G

The Statement of Accounts was authorised for issue by the Service Director for Finance (BMBC), Section 151 Officer on 24th July 2023. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31st March 2023, the figures in the financial statements and notes have been adjusted in all material aspects to reflect the impact of this information.

Note 15 – Property, Plant and Equipment

Description:	Property, Plant & Equipment are assets that the Authority uses to provide services to the public. This note shows the value and movement in those assets together with the valuation methodology.

Depreciation:

The following useful lives and depreciation rates have been used in the calculation of depreciation:

- Buildings – 10 to 50 years; and
- Vehicles, Plant, Furniture & Equipment – 2 to 20 years.

Effects of Changes in Estimates:

There have been no changes to the depreciation methodologies used during 2022/23.

Capital Commitments:

At 31st March 2023, the Authority had contractually committed to £4.341M of capital works within its capital programme. The corresponding amount contractually committed as at 31st March 2022 was £2.791M. The major commitments are:

- Fire station replacements and other premises improvements - £0.698M;
- Vehicle Purchase - £3.569M;
- Equipment - £0.005M; and
- IT - £0.069M

STATEMENT OF ACCOUNTS 2022/23

Revaluations:

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value, is revalued at least every five years. The valuations of land and buildings were carried out during the year by an external valuer, Bruton Knowles, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institute of Chartered Surveyors (RICS). The effective date of the valuation was 31st March 2023. During 2022/23, a revaluation exercise was undertaken to estimate the impact of movements in valuations of all of the Authority's operational assets.

The basis for valuation is set out in [Annex A](#) – Statement of Accounting Policies.

	Land and Buildings	Vehicles, Plant, Furniture & Equipment	Surplus Assets	Assets Under Construction	Total
	£000s	£000s	£000s	£000s	£000s

2021/22	-	-	-	-	-
2020/21	-	-	-	-	-
2019/20	-	-	-	-	-
2018/19	-	-	-	-	-
Gross Book Value	51,717	27,043	-	-	78,760

Note 16 – Intangible Assets

Description:	Intangible Assets are non-physical assets, used by the Authority. This note shows the value and movement in those assets.
Relevant Accounting Policies:	Accounting Policy I

The Authority accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system, in which case it would be accounted for as part of the hardware item of Property, Plant and Equipment.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Authority. The carrying amount of intangible assets are amortised on a straight-line basis. The amortisation of £0.068M has been charged to the Net Cost of Services within the Comprehensive Income and Expenditure Statement.

The movement of Intangible Asset balances during the year are as follows:

2021/22 Purchased Software £000s		2022/23 Purchased Software £000s
429	Balance at 1st April:	497
(255)	- Gross Carrying Amounts	(323)

[Balance Sheet](#)

Note 18 – Capital Expenditure and Capital Financing	
Description:	This note shows the Authority's capital financing requirement (CFR), which is the underlying requirement to borrow, and how that has changed during the year.

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

2021/22 £000s		2022/23 £000s
29,983	Opening Capital Financing Requirement	29,814
4,071	<i>Capital Investment:</i> Property, Plant & Equipment	3,069
68	Intangible Assets	97
4,139	Total Capital Investment	3,166
-	<i>Sources of Finance - For Capital Expenditure Purposes:</i> Capital Receipts	(295)
(81)	Government Grants & Other Contributions	(557)
(642)	Revenue Contributions	(100)
(3,199)	Reserves	(60)
(3,922)	Total Resources Utilised to Fund In Year Capital Expenditure	(1,012)
217	Increase in Capital Financing Requirement as a Result of In Year Capital Expenditure	2,154
(386)	<i>Sources of Finance - Set Aside to Repay Debt:</i> MRP	(404)
(386)	Total Set Aside to Repay Debt	(404)
29,814	Closing Capital Financing Requirement	31,564

STATEMENT OF ACCOUNTS 2022/23

2021/22		2022/23
£000s		£000s
217	Increase / (Decrease) in Underlying Need to Borrow (Funded from Authority's Own Base Resources)	2,154
-	Assets Acquired Under Finance Leases	-
(386)	Amounts Set Aside to Repay Debt - Statutory	(404)
(169)	Increase / (Decrease) in Capital Financing Requirement	1,750

Note 19 – Leases

Description:	A lease is a contractual arrangement that allows the lessee the use of an asset, in exchange for consideration to the lessor. This note details the arrangements that the Authority is party to which are classed as leases
Relevant Accounting Policies:	Accounting Policy M
Areas of Critical Judgements Made:	Judgement 1 / Judgement 2

Authority as Lessee

Finance Leases

The Authority acquired land for the car park at its training centre in 2011. The asset acquired under these leases are carried as Property, Plant and Equipment in the Balance Sheet with the following net amounts:

31st March 2022 £000s		31st March 2023 £000s
-	Land & Buildings	-
-	Vehicles, Plant, Furniture & Equipment	-
-	Total	-

The Authority is committed to making minimum payments under the vehicles and equipment leases, comprising settlement of long-term liability for the interest in the assets acquired by the Authority and finance costs that will be payable by the Authority in future years while the liability remains outstanding:

31st March 2022 £000s		31st March 2023 £000s
-	Finance Lease Liabilities (Net Present Value of Minimum Lease Payments):	-
-	- Current	-
-	- Non-Current	-
-	Finance Costs Payable in Future Years	-
-	Minimum Lease Payments	-

The minimum lease payments will be payable over the following periods:

31st March 2022			31st March 2023	
Minimum Lease Payments	Finance Lease Liabilities		Minimum Lease Payments	Finance Lease Liabilities
£000s	£000s		£000s	£000s
-	-	Not later than one year	-	-
-	-	Later than one year and not later than five years	-	-
-	-	Later than five years	-	-
-	-		-	-

The above minimum lease payments did not include any rents that are contingent on events taking place after the lease was entered into.

STATEMENT OF ACCOUNTS 2022/23

Operating Leases

The Authority currently has one operating leases for a vehicle. The future minimum lease payments due under non-cancellable leases in future years are:

31st March 2022 £000			31st March 2023 £000s	
4	-	Not Later Than One Year	-	1
-	-	Later Than One Year & Not Later Than Five Years	-	-
-	-	Later Than Five Years	-	-
4				1

The expenditure charged to the Comprehensive Expenditure and Income Statement during the year in relation to these leases were £0.001M in 2022/23 (£0.004M in 2021/22).

Note 20 – Financial Instruments

Description:	Financial Instruments are any contract that gives rise to a financial asset of one entity and a financial liability of another entity. This note explains the Authority's financial instruments and the impact on the accounts.
Relevant Accounting Policies:	Accounting Policy O / Accounting Policy V
Areas of Critical Judgements Made:	Judgement 4
Areas of Uncertainty:	Uncertainty Statement 4

The South Yorkshire Fire & Rescue Authority's treasury management function is administered by Barnsley MBC. Investments commenced in line with the revised working arrangements, on a single entity basis, on 1st April 2015.

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another. The definition is broad and covers instruments used in treasury management activities including the borrowing and lending of money and making of investments. However, it also extends to include such items as trade receivables (debtors) and trade payables (creditors).

Financial Instrument Balances:

The following categories of financial instrument are carried in the Balance Sheet:

31 st March 2022			31 st March 2023		
Long Term £000s	Short Term £000s		Long Term £000s	Short Term £000s	
-	-	Investments: Amortised Cost	-	-	
-	-	Total Investments	-	-	Balance Sheet
-	6,102	Cash Equivalents: Amortised Cost	-	5,231	
-	6,102	Total Cash Equivalents	-	5,231	Cash Flow
-	6,102	Total Financial Assets	-	5,231	
(22,296)	-	Borrowing: Amortised Cost	(21,334)	(1,000)	
-	(84)	Accrued Interest	-	(84)	
(22,296)	(84)	Total Borrowing	(21,334)	(1,084)	Balance Sheet
-	-	Other Liabilities: Amortised Cost	-	-	
-	-	Total Other Liabilities	-	-	Balance Sheet
(22,296)	(84)	Total Financial Liabilities	(21,334)	(1,084)	

It should be noted that within the Balance Sheet totals for cash and cash equivalents, there are some amounts that do not meet the definition of financial instruments. As such they have not been disclosed again in the above table. The full Balance Sheet values are analysed in the cash flow statement.

STATEMENT OF ACCOUNTS 2022/23

31st March 2022			31st March 2023	
Long Term £000s	Short Term £000s		Long Term £000s	Short Term £000s
-	-	Other Liabilities:	-	-
-	-	Finance Lease Liabilities	-	-
-	-	Other Local Authority Debt	-	-
-	-	Total Other Liabilities	-	-

Debtors and creditors are measured at amortised cost which is typically the transactional value or invoiced amount. The Balance Sheet values are analysed in [Note 24](#) and [Note 25](#) respectively. They are low risk in nature and largely comprise of amounts owed by and to the Authority as a result of its day to day business. As such, they have not been disclosed again in the above note. However, it should be noted that within the Balance Sheet totals for debtors and creditors, there are amounts that do not meet the definition of financial instruments.

Reclassifications:

No financial assets or liabilities were reclassified during 2022/23.

Impairment:

No financial assets or liabilities were impaired during 2022/23.

Financial Instrument Income, Expense, Gains and Losses:

2021/22				2022/23		
Financial Liabilities: Measured at Amortised Cost	Financial Assets: Measured at Amortised Cost	Total		Financial Liabilities: Measured at Amortised Cost	Financial Assets: Measured at Amortised Cost	Total
£000s	£000s	£000s		£000s	£000s	£000s
987	-	987	Interest Expense	969	-	969
987	-	987	Total Expense in Surplus or Deficit on the Provision of Services	969	-	969
-	(7)	(7)	Investment Income	-	(280)	(280)
-	(7)	(7)	Total Income in Surplus or Deficit on the Provision of Services	-	(280)	(280)
987	(7)	980	Net (Gain) / Loss for the Year	969	(280)	689

Fair Values of Assets: Assets Carried at Fair Value:

The Authority does not hold any financial assets at fair value.

Fair Values of Assets: Assets Not Measured at Fair Value

Except for financial assets carried at fair value (see above), all other financial assets held by the Authority are classified as short term receivables, short term investments and long term debtors are carried in the balance sheet at amortised cost. As such, they are not disclosed in this note as their carrying value is a suitable approximation of their fair value.

Fair Values of Liabilities: Liabilities Not Measured at Fair Value

All financial liabilities are carried in the balance sheet at amortised cost. The fair values of such liabilities are disclosed for comparison purposes. Fair value is the amount for which a liability could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

STATEMENT OF ACCOUNTS 2022/23

Financial liabilities represented by loans are carried in the Balance Sheet at amortised cost.

The fair values are calculated as follows:

Recurring Fair Value Measurements Using:	Carrying Value as at 31 st March 2023* £000s	Quoted Prices in Active Markets for Identical Assets (Level 1) £000s	Other Significant Observable Inputs (Level 2) £000s	Significant Unobservable Inputs (Level 3) £000s	Fair Value as at 31 st March 2023 £000s

Recurring Fair Value Measurements Using:	Carrying Value as at 31 st March 2022* £000s	Quoted Prices in Active Markets for Identical Assets (Level 1) £000s	Other Significant Observable Inputs (Level 2) £000s	Significant Unobservable Inputs (Level 3) £000s	Fair Value as at 31 st March 2022 £000s
Financial Liabilities	(23,168)	-	(28,761)	-	(28,761)
Total Valuation	(23,168)	-	(28,761)	-	(28,761)

* The total carrying value of the actual loans outstanding totals £23.168M as at 31st March 2023 (£23.168M as at 31st March 2022). The equivalent figure in the Authority's balance sheet is lower than this as a result of historical accounting practice with regards to accounting for premiums paid on the early redemption of debt, prior to 2007, whereby authorities were allowed to show such premiums against the carrying value of the loans.

The fair value of financial liabilities is higher than the carrying amount because the Authority's portfolio of loans includes a number of loans where the interest rate payable is higher than the rates available for similar loans at the Balance Sheet date.

Valuation Techniques used to Determine Level 2 Fair Values for Financial Liabilities

The financial liabilities' fair value can be assessed by calculating the present value of cash flows that take place over the remaining life of the instruments using the following assumptions:

- The Authority's Treasury Management Advisors, Link Asset Services (Link), have provided the Fair Value amounts in relation to its debt portfolio. Link have assessed the Fair Values by discounting the contractual cash flows over the life of the loan based on the PWLB New Loan Rate at the balance sheet date; and
- No early repayment or impairment is recognised for any financial instrument; and
- The fair value of short-term investments, including trade payables and receivables is assumed to be approximate to the carrying amount.

Note 21 – Nature and Extent of Risks Arising From Financial Instruments

Description:	This note explains the risk of the financial instruments detailed in Note 20 in respect of credit risk, liquidity risk and market risk.
--------------	-----------------------------------------------------------------------------------------------------------------------------------------

Financial Instruments - Risks

The Authority's activities expose it to a variety of financial risks:

- credit risk – the possibility that other parties might fail to pay amounts due to the Authority;
- liquidity risk – the possibility that the Authority might not have funds available to meet its commitments to make payments; and
- market risk – the possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates.

STATEMENT OF ACCOUNTS 2022/23

Overall Procedures for Managing Risk

The Authority's overall risk management procedures focus on the unpredictability of financial markets, and seek to minimise potential adverse effects on the resources available to fund services. The procedures for risk management are set through a legal framework which requires the Authority to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and investment guidance. Overall, these procedures require the Authority to manage risk in the following ways:

- by formally adopting the requirements of the CIPFA Treasury Management Code of Practice;
- by the adoption of a Treasury Policy Statement and Treasury Management clauses within its financial regulations;
- by approving annually in advance prudential and treasury indicators for the following three years limiting:
 - the Authority's overall borrowing;
 - the maximum and minimum exposures to fixed and variable rates;
 - its maximum and minimum exposures to the maturity structure of its debt; and
 - its maximum annual exposures to investments maturing beyond a year.
- by approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with Government guidance.

These are reported within the annual Treasury Management Strategy which outlines the detailed approach to managing risk in relation to the Authority's financial instrument exposure. The 2022/23 Treasury Management Strategy was approved by the Authority in February 2022 with actual performance reported after the end of the year.

This Strategy incorporates the prudential indicators, with the key measures in terms of limits outlined below:

- The Authorised Limit for 2022/23 was set at £43.188M. This is the maximum limit of external borrowings or other long term liabilities;
- The Operational Boundary was expected to be £39.188M. This is the expected level of debt and other long term liabilities during the year; and
- The upper limits on fixed and variable interest rate exposure were set at 70% and 30% respectively.

These policies are implemented by BMBC treasury officers with advice from Link Asset Services. The Authority has written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash.

Credit Risk

Credit risk arises from the lending of surplus funds to banks, building societies and other local authorities as well as credit exposures to the Authority's customers. The risk is minimised through the Annual Investment Strategy (AIS), which requires that deposits are not made with financial institutions unless they meet identified minimum criteria set by the Authority. The Annual Investment Strategy also imposes maximum amounts and time limits in respect of each financial institution. Deposits are not made with financial institutions unless they meet the minimum requirements of the investment criteria outlined above.

The key areas of the Investment Strategy are that the minimum criteria for investment are based on the creditworthiness service provided by Link. This service uses a sophisticated modelling approach with credit ratings from all three rating agencies (Fitch, Moodys and Standard and Poors) forming the core element. However, it does not rely solely on the current credit ratings of counterparties but also uses the following as overlays:

- Credit watches and credit outlooks from credit rating agencies;
- Credit Default Swaps spreads to give early warning of likely changes in credit ratings; and
- Sovereign ratings to select counterparties from only the most creditworthy countries.

Deposits with institutions were limited to a maximum of £10M with any one counterparty, depending on credit quality.

All investments were made in accordance with the Authority's 2022/23 Annual Investment Strategy and no investments are considered to pose an immediate credit risk. The Authority recognises expected credit losses on all of its financial assets held at amortised cost, either on a 12-month or lifetime basis. Since the Authority only invests in high quality institutions and products, its regular treasury investments have been measured on a 12-month basis. Based on the historic risk of default data provided by Link Asset Services (the Authority's treasury management advisors), the loss allowance required is immaterial.

STATEMENT OF ACCOUNTS 2022/23

The Authority does not generally allow credit for customers. The total value of trade debtors at 31st March 2023 is £0.107M analysed as follows:

31st March 2022 £000	Aged Debt Analysis:	31st March 2023 £000s
119	Less Than Three Months	92
-	Three to Six Months	5
6	Six Months to One Year	3
13	More Than One Year	7
138		107

The Authority also recognises expected credit losses on its trade debtors on a lifetime basis. Trade debtors are not subject to internal credit rating and have been collectively assessed using provision matrices - based on historical data for defaults adjusted for current and forecast economic conditions. In 2022/23, the Authority did not provide for or write-off any significant uncollectable debts.

Liquidity Risk

The Authority has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. As the Authority has access to borrow from the Public Works Loan Board (PWLB), there is no significant risk that the Authority will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the Authority will be bound to replenish a significant proportion of its borrowings at a time of unfavourable interest rates.

The Authority therefore has safeguards in place to ensure that a significant proportion of its borrowing does not mature for repayment at any one time in the future which reduces the financial impact of re-borrowing at a time of unfavourable interest rates. The Authority's policy is to ensure that not more than 20% of loans are due to mature within any financial year through a combination of prudent planning of new loans taken out and, where it is economic to do so, making early repayments.

The maturity analysis of loans outstanding to PWLB as at 31 March 2023 is:

31st March 2022 £000s		31st March 2023 £000s
-	Maturing in:	
(5,679)	Less Than 1 Year	(1,000)
(5,410)	1 to 5 Years	(5,089)
(8,429)	5 to 10 Years	(7,000)
(1,650)	10 to 20 Years	(6,429)
(2,000)	20 to 30 Years	(1,650)
	30 to 40 Years	(2,000)
(23,168)		(23,168)

The average interest payable by the Authority during 2022/23 was 4.21% with rates ranging from 2.09% to 7.13%.

All trade and other payables are due to be paid in less than one year.

Market Risk

The Authority is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Authority. For instance, a rise in interest rates would have the following effects:

- borrowings at variable rates – the interest expense charges to the Comprehensive Income and Expenditure Statement will rise;
- borrowings at fixed rates – the fair value of the liabilities will fall;
- investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Comprehensive Income and Expenditure Statement. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Comprehensive Income and Expenditure Statement.

STATEMENT OF ACCOUNTS 2022/23

The Authority has a number of strategies for managing interest rate risk. The Authority's policy is to aim to keep a maximum of 30% of its borrowings in variable loan rates. During periods of falling interest rates, and where economic circumstances make it favourable, fixed rate loans may be repaid early to limit exposure to losses. The risk of loss is reduced by the fact that a proportion of government grant payable on financing costs will normally move with the prevailing interest rates on the Authority's cost of borrowing and provide compensation for a proportion of any higher costs.

The Authority's Treasury Management Strategy provides for the assessment of interest rate exposure, which will assist in decisions on whether new borrowing taken out should be on a fixed or variable basis.

The Authority received total investment interest of £0.280M for the financial year with an average rate of 2.14%. A change of 0.1% in the interest rate achieved would have resulted in a decrease or increase in interest of approximately £0.009M provided that bank balances had remained the same. The Authority therefore has limited exposure to changes in interest rates.

Price Risk

The Authority does not invest in equity shares on the markets and therefore is not at significant risk to price movements.

Foreign Exchange Risk

The Authority has no financial assets or liabilities in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

Note 22 – Inventories

[Balance Sheet](#)

Insurance Fund

The Authority provides a degree of self-insurance through its insurance provision. Under its insurance policies, the Authority has to meet a proportion of each claim up to a total maximum level each year. A contribution to the provision is made from revenue to fund this uninsured liability, in accordance with advice from the Authority's insurance brokers. Payments are then made directly from the provision. An element of this provision has been classified as long term on the Balance Sheet following an assessment of likely payment profiles.

Municipal Mutual Insurance (MMI)

The Authority's former insurance company, MMI Limited, ceased trading in September 1992 and a 'Scheme of Arrangement' was agreed in case of insolvency, involving a claw back of claims paid. The Scheme was triggered during 2012/13 and in 2013/14. The Authority has paid a levy of 25% of total claims payments equating to £0.211M. In 2018/19, a further provision was made totalling £0.020M, which was reduced to £0.006M in 2020/21 and then to nil during 2021/22.

Collection Fund – Share of Appeals Provision

Under the provisions of the Code of Practice, the Authority is required to account for its share of the 4 respective districts' provision for business rate appeals.

Other

In respect of the other provisions, there remains outstanding provisions in relation to current litigation and legal cost sharing agreements relating to current pension legal cases.

STATEMENT OF ACCOUNTS 2022/23

Note 28 – Contingent Liabilities	
Description:	This note outlines the areas by which the Authority may incur a potential liability, depending on the outcome of an uncertain future event.
Relevant Accounting Policies:	Accounting Policy P
Areas of Critical Judgements Made:	Judgement 5

Immediate Detriment

In 2018, the court of appeal in the McCloud and Sargeant legal case ruled that the transitional protection element of the 2015 public service pension reforms constituted unlawful age discrimination. Following a recent Employment Tribunal determination, it is unlikely that the required changes to regulations will be in place before 1 October 2023. In advance of reaching this date the Fire Brigades Union and the Local Government Association have provided guidance to employers on dealing with 'immediate detriment' cases. South Yorkshire Fire and Rescue Authority adopted this framework in January 2022 with a number of staff retiring under immediate detriment prior to the year-end. A reserve has been created to cover the costs of processing these claims. To date draw down has been £0.124M in 21/22 and £0.297M in 22/23. It is anticipated that these costs can be recouped when legislation is in place. Any further costs are dependent on staff and retirees submitted applications.

Part-Time Workers - Fire Brigades Union and Retained Firefighters Union Settlement Agreements

The case relates to the application of the Part-time Workers (Prevention of Less Favourable Treatment) Regulations 2000 to retained duty system employees. Settlement agreements were reached in 2015 in respect of the terms and conditions part of the claims in regard to many thousands of Employment Tribunals cases relating to potential discrimination under those Regulations. Resolution has been compounded following the European Court of Justice judgement involving part-time judges, which in effect held that remedy could extend back before the Part-time Workers Regulations implemented in July 2000. South Yorkshire Fire and Rescue are part of the cost sharing arrangements to cover the legal work provided. At this time, discussions are still taking place and the quantum of the impact is unknown.

Note 29 – Contingent Assets	
Description:	This note outlines the areas by which the Authority may in receipt of a potential gain, depending on the outcome of an uncertain future event.
Relevant Accounting Policies:	Accounting Policy P
Areas of Critical Judgements Made:	Judgement 5

The Authority has no material contingent assets as at 31st March 2023.

Note 30 – Defined Benefit Pension Schemes	
Description:	A Defined Benefit Pension Scheme is one that is not classed as a defined contribution scheme. This note explains such schemes that the Authority is party to.
Relevant Accounting Policies:	Accounting Policy F
Areas of Uncertainty:	Uncertainty Statement 3

Participation in Pension Schemes

As part of the terms and conditions of employment of its employees, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments and this needs to be disclosed at the time that employees earn their future entitlement.

The Authority participates in two pension schemes as explained in the Accounting Policies: Pension schemes for Fire officers (FPS 1992, 2006 & 2015) and the Local Government Pension Scheme (LGPS) for support staff, administered by the South Yorkshire Pensions Authority.

Injury awards are payable irrespective of whether a Fire Officer is a member of the Pension Scheme and tax rules from 1 April 2006 prevent injury awards from being part of pension scheme regulations. Injury awards have been moved into a separate Fire Compensation Scheme (FCS) and under the pensions financial arrangements they must be paid from the Authority's operating account and not the Pension Fund Account. The injury awards have been accounted for as part of the pensions adjustments and information relating to these injury awards are included in the 'Fire Fighters' Pension Schemes' totals below.

STATEMENT OF ACCOUNTS 2022/23

Transactions Relating to Post-Employment Benefits

The cost of retirement benefits is recognised in the reported Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required against council tax is based on the cash payable in the year, so the real cost of post-employment / retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

<u>2022/23</u>	Fire Fighters' Pension Schemes	LGPS	Total
	£000s	£000s	£000s

- Employers' Contributions Payable to Scheme	-	1,170	1,170
- Retirement Benefits Payable to Pensioners	7,080	-	7,080
- Additional Contribution to Fire Pension Fund Account to Balance Deficit	17,840	-	17,840
Net Adjustment to Surplus or Deficit for the Provision of Services	(8,880)	(2,461)	(11,341)

[Note 3](#)

*IAS 19 limits the measurement of the defined benefit asset to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. IFRIC 14 provides guidance on the interaction of the IAS 19 limit and any minimum funding requirements. Due to IFRIC 14 a minimum funding requirement is included within the accounts to place onerous obligation on the obligation recognised under IAS19.

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, which is an estimate of the pensions that will be payable in future years dependent on assumptions including mortality rates, employee turnover and salary levels. The liabilities of the Fire Pension and Compensation Schemes have been assessed by the Government Actuary’s Department (GAD). The LGPS fund liabilities have been assessed by Hymans, using estimates based on the latest full valuation of the scheme as at 31st March 2020 for the period to 31st March 2023.

The significant assumptions used by the actuaries have been:

2021/22		Mortality Assumptions:	2022/23	
Years			Years	
FPS	LGPS	FPS	LGPS	
21.5	22.6	Longevity at 65 for Current Pensioners (Male)	21.2	20.5
21.5	25.4	Longevity at 65 for Current Pensioners (Female)	21.2	23.7
23.2	24.1	Longevity at 65 for Future Pensioners (Male)	22.9	21.5
23.2	27.3	Longevity at 65 for Future Pensioners (Female)	22.9	25.2
%			%	
3.00	3.20	Rate of CPI	2.60	2.95
4.75	4.20	Rate of Increase in Salaries	3.85	3.55
3.00	3.20	Rate of Increase in Pensions	2.60	2.95
2.65	2.70	Discount Rate	4.65	4.75

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Firefighters’ Pension Scheme: Impact on the Defined Benefit Obligation in the Scheme	Increase / (Decrease)
	£000s
- Longevity (Increase by 1 Year)	17,000
- Rate of Increase in Salaries (Increase by 0.5%)	5,000
- Rate of Increase in Pensions (Increase by 0.5%)	40,000
- Rate of Discounting Scheme Liabilities (Increase by 0.5%)	(42,000)

STATEMENT OF ACCOUNTS 2022/23

Local Government Pension Scheme: Impact on the Defined Benefit Obligation in the Scheme	Increase / (Decrease)
	£000s
- Longevity (Increase by 1 Year)	2,198
- Rate of Increase in Salaries (Increase by 0.1%)	950
- Rate of Increase in Inflation (Increase by 0.1%)	132
- Rate of Discounting Scheme Liabilities (Increase by 0.1%)	(1,066)

Impact on the Authority's Cash Flows

The objectives of the LGPS are to keep employers' contributions at as constant a rate as possible. The Authority has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 16 years. Funding levels are monitored on an annual basis. The latest triennial valuation was completed on 31st March 2020 in respect of the 3 year period 2020/21 – through to 2022/23.

The contributions in respect of the Firefighters' Pension Schemes are determined by Government.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31st March 2017. The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earning schemes to pay pensions and other benefits to certain public servants.

The liabilities show the underlying commitments that the Authority has in the long run to pay employment benefits. The total liability of £622M has a substantial impact on the net worth of the Authority as recorded in the Balance Sheet, resulting in a negative overall balance of £575M.

However, statutory arrangements for funding the deficit mean that the financial position of the Authority remains healthy:

- the deficit on the LGPS will be made good by increased contributions over the remaining working life of the employees (i.e. before payments fall due), as assessed by the scheme actuary
- finance is only required to be raised to cover Firefighters Pensions when the pensions are actually paid.

The total contributions expected to be made to the LGPS by the Authority in the year to 31 March 2024 is £1.321M. Expected contributions for the Fire Pensions Schemes in the year to 31 March 2024 are £6.323M.

The weighted average duration of the defined benefit obligation for scheme members is:

- LGPS – 19 years
- FPS – 15 years

STATEMENT OF ACCOUNTS 2022/23
NOTES PRIMARILY RELATING TO THE CASH FLOW STATEMENT

Note 31 – Cash Flow Statement – Operating Activities

Description:	Operating activities are the activities of the Authority that are not investing or financing activities.
--------------	----------------------------------------------------------------------------------------------------------

The cash inflows for operating activities of £0.855M (£7.762M inflow in 2021/22) include the following items:

	2021/22 £000s		2022/23 £000s
	971	Interest Paid	892
	(7)	Interest Received	(289)

STATEMENT OF ACCOUNTS 2022/23

NOTES TO THE PENSION FUND

The Authority administers the Firefighters' Pensions Fund Account. The operation of the Pension Fund is controlled by the Firefighters' Pension Scheme (Amendment) (England) Order 2006, which specifies the amounts that must be paid into and out of the Fund.

Contributions are made into the Pension Fund from the Authority and those of its employees who are members of the Firefighter Pension schemes. The contribution rates are based on percentages of pensionable pay, as determined nationally by the Government and subject to triennial revaluation by the Government Actuary's Department. The current contribution rates are as follows:

	FPS 1992	FPS 2006	FPS 2015
	%	%	%
Employer Contribution	37.3	27.4	28.8
Employee Contribution – Based on Salary Bandings	11.0 - 17.0	8.5 - 12.5	11.0 - 14.5

The Authority is also required to make payments into the Fund in respect of ill health retirements. The schemes are unfunded which means that there are no investment assets built up to meet pensions payments. The Pension Fund Account is therefore balanced to nil each year by the receipt of a top-up grant from the Government if contributions are insufficient to meet the defined pensions benefits payable. Any surpluses on the Fund are repayable to the Government.

The accounting policies adopted for the Pension Fund follow those set out in the Authority's Statement of Accounting Policies. However, the Net Assets Statement does not include liabilities to pay pensions and other benefits after the Balance Sheet date. These are dealt with within the Authority's Financial Statements and Notes in accordance with the application of International Accounting Standard 19 - Employee Benefits.

STATEMENT OF ACCOUNTS 2022/23

TECHNICAL ANNEX A

THE AUTHORITY'S ACCOUNTING POLICIES

a) General Principles

The Statement of Accounts summarises the Authority's transactions for the 2022/23 financial year and its position at the year-end of 31 March 2023. The Authority is required to prepare an annual Statement of Accounts in accordance with proper accounting practices by the Accounts and Audit (England) Regulations 2015. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 (the Code), and the Service Reporting Code of Practice 2022/23, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

b) Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet;
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made;
- Fees and charges due are accounted for as income at the date the Authority provides the relevant goods or services;
- Interest payable on borrowings and receivable on investments is accounted for as expenditure or income respectively on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract; and
- Where income and expenditure has been recognised but cash has not yet been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

c) Cash and Cash Equivalents

Cash is represented by cash in hand and demand deposits. Cash Equivalents are short-term, highly liquid investments with financial institutions that are readily convertible to known amounts of cash with insignificant risk of change in value. The Authority has classified investments in Call Accounts and Money Market Funds, which provide instant access with no penalty, as cash equivalents.

In the Balance Sheet and the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Authority's cash management.

d) Exceptional Items

When items of income and expenditure are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Authority's financial performance.

e) Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, that is in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or when the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Authority's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

STATEMENT OF ACCOUNTS 2022/23

f) Employee Benefits

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as salaries, paid annual leave and flexitime, bonuses and non-monetary benefits (for example cars) for current employees and are recognised as an expense in the year in which employees render service to the Authority. An accrual is made for the cost of holiday entitlements and other forms of leave, such as time off in lieu, earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to the Surplus or Deficit on the Provision of Services within the Comprehensive Income and Expenditure Statement and then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Authority to terminate an officer's employment before the normal retirement date or of an officer's decision to accept voluntary redundancy in exchange for those benefits. These are charged on an accruals basis to the Comprehensive Income and Expenditure Statement at the earlier of when the Authority can no longer withdraw the offer of those benefits or when the Authority recognises costs for a restructuring.

When termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be charged with the amount payable by the Authority to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Retirement Benefits

Employees of the Authority are members of the following pensions schemes:

- the 1992, 2006 and 2015 Firefighters' Pension Schemes (FPS) - these are unfunded schemes, which means that there are no investment assets built up to meet the pensions liabilities, and cash has to be generated to meet the actual payments as they fall due. The Authority is required by legislation to operate a Pension Fund, with the amounts that must be paid into or out of the Pension Fund being specified by regulation. The Authority set up a Pension Fund on 1 April 2006 from which pension payments are made and into which contributions, from the Authority and employees, are received. The Pension Fund receives a top-up grant from the Government equal to the deficit each year, with any surplus on the Fund being repaid to the Government. The Pension Fund is shown separately in the Accounts.
- the Local Government Pension Scheme (LGPS) for support staff, administered by the South Yorkshire Pensions Authority, is a funded scheme, which means that the Authority and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.

The above schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees work for the Authority. They are accounted for in accordance with the requirements for defined benefits schemes, based on the principle that an organisation should account for retirement benefits when it is committed to give them, even though this may be many years into the future.

A pension asset or liability is recognised in the Balance Sheet, made up of the net position of retirement liabilities and pension scheme assets. Retirement liabilities are measured on an actuarial basis using the projected unit method, by assessing the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates and projections of earnings for current employees. Pension scheme assets (LGPS only) attributable to the Authority are included at their fair value. The Authority currently has a net pensions liability and this is matched in the Balance Sheet by a negative Pensions Reserve.

The change in net pensions liability during the year is analysed into the following components:

- Service cost comprising:
 - current service cost – the increase in liabilities as a result of service earned by employees in the current year. This is charged to services within the Comprehensive Income and Expenditure Statement;

STATEMENT OF ACCOUNTS 2022/23

- past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to service earned in earlier years. This is part of Non Distributed Costs in the Comprehensive Income and Expenditure Statement; and
 - net interest on the net defined benefit liability – the change during the period in the net defined benefit liability that arises from the passage of time. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the period, taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments. This is charged to the Financing and Investment Income and Expenditure line within the Comprehensive Income and Expenditure Statement.
- Remeasurements comprising:
 - the return on plan assets (LGPS only) – this excludes amounts included in net interest on the net defined benefit liability and is charged to the Pensions Reserve as Other Comprehensive Income and Expenditure; and
 - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. This is charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
 - Contributions paid / benefits paid – cash paid as employer’s contribution by the Authority either to LGPS or directly to pensioners to reduce the scheme liabilities.

Statutory provisions require that the amount charged to the General Fund Balance is that payable by the Authority to pensions funds or directly to pensioners during the year, rather than that calculated under accounting standards. This means that an appropriation to or from the Pensions Reserve is done within the Movement in Reserves Statement to replace the notional sums for retirement benefits with the actual pensions costs. The negative balance on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

g) Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events; and
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

h) Government Grants and Contributions

Whether paid on account, by instalments or in arrears, Government grants and third-party contributions and donations are recognised as income when there is a reasonable assurance that:

- the Authority will comply with the conditions attached to the grant or contribution; and
- the grants or contributions will be received.

Amounts recognised as due to the Authority are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Most grants and contributions will be given with stipulations as to how they are to be spent and the consequences if resources are not applied in the manner authorised. Conditions are stipulations that require that the grant or contribution must be returned if not deployed as specified. Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

STATEMENT OF ACCOUNTS 2022/23

i) Intangible Assets

Expenditure on assets that do not have physical substance but are identifiable and controlled by the Authority, such as software licences, is capitalised when it is expected that future economic benefit or service potential will flow to the Authority for more than one year.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible, is intended to be completed and the Authority will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset.

Intangible assets are measured initially at cost. The depreciable amount of the intangible asset balance is subsequently amortised over its useful life to the relevant service line in the Comprehensive Income and Expenditure Statement. Any gain or loss arising from the disposal of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation and gain or losses on disposal are not permitted to have an impact on the General Fund Balance and are reversed out in the Movement in Reserves Statement to the Capital Adjustment Account and the Capital Receipts Reserve (for sale proceeds greater than £10,000).

j) Property, Plant and Equipment

Assets that have physical substance and are held for use in the provision of services or for administrative purposes and are expected to be used for more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Authority and the cost can be measured reliably. Expenditure on repairs that maintains but does not add to an asset's potential to deliver future economic benefits or service potential is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising the purchase price and any costs directly attributable to bringing the asset into working condition for its intended use. The Authority does not capitalise borrowing costs incurred whilst assets are under construction.

Assets are then carried in the Balance Sheet at fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV), except for:

- specialised properties such as fire stations where there is no market-based evidence of fair value, depreciated replacement cost (DRC) is used as an estimate of fair value; and
- non-property assets that have short useful lives and / or low values which are measured at depreciated historical cost basis as a proxy for fair value; and
- assets under construction which are measured at historical cost.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains); and
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.

STATEMENT OF ACCOUNTS 2022/23

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for as follows:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against the balance (up to the amount of the accumulated gains); and
- where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life, such as freehold land, and assets that are not yet available for use (assets under construction).

Depreciation is calculated on the following bases:

- Buildings – straight line allocation over the useful life of the property as estimated by the valuer; and
- Vehicles, plant, furniture and equipment – straight line allocation over the useful life of each asset as advised by a suitably qualified officer.

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on the assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continued use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and the fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale, adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposal (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received from disposals in excess of £10,000 are categorised as capital receipts and are required to be credited to the Capital Receipts Reserve as part of the Movement in Reserves Statement. The Capital Receipts Reserve can only

STATEMENT OF ACCOUNTS 2022/23

be used either to finance new capital investment or to reduce the Authority's borrowing requirement and when sums are utilised for this purpose, they are subsequently transferred to the Capital Adjustment Account.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

k) Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non-current asset is charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Authority has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer from the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement then reverses out the amounts charged so there is no impact on the level of council tax.

l) Charges to Revenue for Non-Current Assets

Services are debited with the following amounts to record the real cost of holding non-current assets during the year:

- depreciation attributable to the assets used; and
- revaluation and impairment losses on assets used where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off; and
- amortisation of intangible assets attributable to the service.

The Authority is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisations. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement (equal to an amount calculated on a prudent basis determined by the Authority in accordance with statutory guidance). Depreciation, revaluation and impairment losses and amortisations are therefore replaced by the contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

m) Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Authority as a Lessee

Finance Leases

Property, Plant and Equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments under finance leases are apportioned between:

- a charge for the acquisition of the interest in the Property, Plant and Equipment – applied to write down the lease liability; and
- a finance charge, which is debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

The Authority is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted

STATEMENT OF ACCOUNTS 2022/23

by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals payable under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the service benefitting from the use of the leased Property, Plant and Equipment. Charges are made on a straight line basis over the term of the lease; even if this does not match the pattern of payments (for example there is a rent-free period at the commencement of the lease).

The Authority as a Lessor

Operating Leases

Where the Authority grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet and rental income is credited to the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (for example there is a premium paid at the commencement of the lease).

n) Overheads and Support Services

The costs of overheads and support services are charged to the service segments in accordance with the Authority's arrangement for accountability and its financial performance arrangements.

o) Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and carried on the Balance Sheet at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Authority has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains or losses on the repurchase or early settlement of borrowing are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of the transaction. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Authority has a policy of spreading the gain or loss over the term of the replacement loan. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The Authority's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

STATEMENT OF ACCOUNTS 2022/23

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Authority, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement. Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

Expected Credit Loss Model

The Authority recognises expected credit losses on all of its financial assets held at amortised cost [or where relevant FVOCI], either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Authority.

The Authority's trade debtors are not subject to internal credit rating and have been collectively assessed using provision matrices - based on historical data for defaults adjusted for current and forecast economic conditions. Debt write-off is considered when normal recovery procedures have been unable to secure payment. Prior to write-off, all possible action will have been taken to secure the debt, however the extent to which it is pursued is dependent on the amount of the debt and the financial circumstances of the debtor.

With the exception of trade debtors where the simplified approach has been adopted, impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Profit or Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The Authority does not hold any financial assets measured at Fair Value through Profit or Loss.

p) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Authority a legal or constructive obligation that probably requires settlement by a transfer of economic benefits, and a reliable estimate can be made of the amount of the obligation. For instance, the Authority may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Authority becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking account of relevant risks and uncertainties. When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Provisions are reviewed at the end of each financial year and where it becomes less probable that a transfer of economic benefits will now be required, or a lower settlement than anticipated is made, the provision is reversed and credited back to the relevant service.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Authority a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

STATEMENT OF ACCOUNTS 2022/23

Contingent Assets

A contingent asset arises where an event has taken place that gives the Authority a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Authority.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits.

q) Reserves

The Authority sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain other reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and they do not represent usable resources for the Authority. These reserves are explained elsewhere in the Accounting Policies.

r) Inventories

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using an average costing formula.

s) Foreign Currency Translation

Where the Authority has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective.

t) VAT

Income and expenditure excludes amounts related to VAT, as all VAT collected is payable to the HM Revenue and Customs and all VAT paid is recoverable from them.

u) Interest in Companies

The Authority has interests in companies and other entities that have the nature of subsidiaries, associates and joint ventures which may require it to prepare Group Accounts, where material. The Authority has one Trading Company recently set up to allow the Authority to trade more flexibly, in a commercial environment. Within the Authority's own single entity accounts, the interests in companies and other entities are recorded as financial assets at cost. The Authority deems that the value of the financial transactions going through the company as not material enough to produce group accounts.

v) Fair Value Measurement

The Authority measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments such as equity shareholdings at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The authority measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. When measuring the fair value of a non-financial asset, the authority takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Authority's financial statements are categorised within the fair value hierarchy, as follows:

STATEMENT OF ACCOUNTS 2022/23

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date;
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – unobservable inputs for the asset or liability.

STATEMENT OF ACCOUNTS 2022/23

TECHNICAL ANNEX B

CRITICAL JUDGEMENTS AND ASSUMPTIONS / ESTIMATIONS MADE WITHIN THE ACCOUNTS

Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in [Annex A](#), the Authority has had to make certain judgements about complex transactions or those involving uncertainty about future events.

There is a high degree of uncertainty about the future levels of funding for the Authority, and the Authority continues to consider service delivery options to enable spending to be reduced in line with funding reductions. The Authority has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Authority might be impaired as a result of a need to reduce levels of service provision.

The critical judgements made in the Statement of Accounts are:

1. Whether a lease is an operating or finance lease. A lease would normally be classed as a finance lease where it meets one of the following criteria:
 - Ownership of the asset transferred to the Authority at the end of the lease term; and
 - The lessee has an option to purchase the asset at the end of the lease term for a price expected to be sufficiently lower than the fair value; and
 - The lease term is for the major part of the economic life of the asset; and
 - That the present value of minimum lease payments amount to at least substantially all (90% or more) of the fair value of the leased asset; and
 - The leased assets are of such a specialised nature that only the lessee can use them without modification.
2. Whether contractual arrangements have the substance of a lease;
3. Whether the substance of a relationship between the Authority and another entity indicates that the entity is controlled by the Authority; and
4. Whether financial instruments are expected to be fully receivable and the amount of expected credit losses to charge; and
5. Whether the Authority's exposure to possible losses is to be accounted for as a provision or a contingent liability.

Key Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future, or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Authority's Balance Sheet at 31st March 2023 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Ref	Item	Uncertainties	Effect if Actual Results Differ from Assumptions
1	Property, Plant and Equipment	<p>Assets are depreciated over useful lives that are dependent on assumptions about the level of usage of individual assets and the repairs that will be incurred to maintain individual assets in the future. The current economic climate makes it uncertain that the Authority will be able to sustain its current spending in either maintaining or replacing its assets, bringing into doubt the useful lives assigned to assets.</p> <p>Assets are also subject to regular revaluations by an independent professional valuer. There are many variables that determine the assets' valuation with equally as many assumptions therein.</p>	<p>If the useful lives of assets are reduced then depreciation increases and the carrying amount of the assets falls. The reverse occurs if the useful lives of assets are increased.</p> <p>In respect of asset valuations, the Authority's valuer has assessed the valuations with the empirical evidence at that time. As the pandemic hit in the final two weeks of the financial year, there is no evidence to reliably assess the impact, though it is appreciated that any impact will be born in 2020/21. As a result, the valuer has included a "material valuation uncertainty" statement in their valuation certificate as per RICS Red Book Global as a result of the Covid 19 pandemic.</p>

STATEMENT OF ACCOUNTS 2022/23

2	Insurance Provision	<p>The Authority has made a total provision of £0.150M for the settlement of outstanding insurance claims. It is difficult to predict the final outcome of claims until they are actually settled.</p> <p>MMI Ltd are the Authority's former insurers who ceased trading in 1992 and with whom there was a Scheme of Arrangement in case of insolvency involving a claw back of claims paid. Further information is provided at Note 27.</p>	<p>There is a risk that existing claims are settled at higher or lower figures than estimated. In addition, since insurance claims develop over time, the requirement to make provisions could be increased by the identification in future years of additional liabilities incurred but not yet reported.</p> <p>The position with regard to MMI Ltd is being kept under review by the Administrators and there may be further levies announced in future.</p> <p>The Authority has earmarked sums in an Insurance Reserve to provide some cover should this occur.</p>
3	Pensions Liability	<p>Estimation of the net liability to pay pensions is extremely volatile as it depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets.</p> <p>Actuaries are engaged to provide the Authority with expert advice about the assumptions to be applied for each of its pension schemes.</p>	<p>Whilst the effects on the net pensions liability of changes in individual assumptions can be measured, the assumptions interact in complex ways.</p> <p>The Authority relies on actuaries to provide an assessment of expected liabilities and assets using a number of key assumptions around financial and demographic estimations. Note 30 provides further details in terms of sensitivity of some of those key assumptions.</p>
4	Fair Value	<p>When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs), their fair value is measured using valuation techniques (e.g. quoted prices for <i>similar</i> assets or liabilities in active markets or the discounted cash flow (DCF) model). Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the Authority's assets and liabilities.</p> <p>Where Level 1 inputs are not available, the Authority employs or commissions relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for Surplus Assets & Assets Held for Sale, the Authority's commissions professional RICS valuers).</p> <p>Information about the valuation techniques and inputs used in determining the fair value of the Authority's assets and liabilities is disclosed in Notes 15, 17 and 20 respectively.</p>	<p><u>Non-Financial Assets:</u> The Authority uses the Market Approach to measure the fair value of its Surplus Assets and its Assets held for Sale.</p> <p>The significant observable inputs used in the fair value measurement include the rental value of offices accommodation once renovated, market yields, renovation / demolition costs and commercial / industrial land values.</p> <p><u>Financial Assets:</u> The Authority uses comparisons around the fixed term deposits and is used to compare the fixed term investment with a comparable investment with the same / similar lender for the remaining period of the deposit.</p> <p><u>Financial Liabilities:</u> The Authority assesses fair value by calculating the present value of cash flows that take place over the remaining life of the instruments.</p> <p>Significant changes in any of the inputs would result in a significantly lower or higher fair value measurement for the Authority's assets and liabilities valued at fair value.</p>

STATEMENT OF ACCOUNTS 2022/23

TECHNICAL ANNEX C

ACCOUNTING STANDARDS REFERENCED BY THE CODE OF PRACTICE

The Code of Practice is based on approved accounting standards and also reflects specific statutory accounting requirements. Compliance with the Code is therefore necessary (except in exceptional circumstances) in order that an authority's accounts give a 'true and fair' view of the financial position, financial performance and cash flows of the authority.

The requirements of International Financial Reporting Standards (IFRS) and other pronouncements by the International Accounting Standards Board in effect for accounting periods commencing on or before 1 January 2015 (as adopted by the EU) apply unless specifically adapted by the Code.

IFRS's are considered a "principles based" set of standards in that they establish broad rules as well as dictating specific treatments.

International Financial Reporting Standards comprise:

- Financial Reporting Standards (FRS);
- International Accounting Standards (IAS);
- International Financial Reporting Standards (IFRS);
- International Financial Reporting Interpretations Committee (IFRIC); and
- Standing Interpretations Committee (SIC).

A further set of interpretations, specifically for the Public Sector, are International Public Sector Accounting Standards (IPSAS).

There are also some UK GAAP accounting standards that remain relevant to Local Authorities as they have no equivalent standard under IFRS and the Code interprets them accordingly.

The paragraphs below give a brief description of the accounting standards that are referred to in CIPFA's Code of Practice. Where relevant, interpretations have been grouped with the standard that they are interpreting.

Financial Reporting Standards (FRS):

Accounting Standard	Link	Accounting Standard	Link
FRS 25 – Financial Instruments: Presentation	FRS 25	FRS 26 – Financial Instruments: Recognition & Measurement	FRS 26
FRS 29 – Financial Instruments: Disclosures	FRS 27	FRS 102 – The Financial Reporting Standard Applicable in the UK	FRS 102

STATEMENT OF ACCOUNTS 2022/23

TECHNICAL ANNEX D

ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

An Authority shall disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. A Council shall provide known, or reasonably estimable information, relevant to assessing the possible impact that application of the new IFRS will have on the Authority's financial statements, including the group statements in the period of initial application. This requirement applies to accounting standards that come into effect for financial years commencing on or before 1 January of the financial year in question (i.e. on or before 1 January 2023 for 2023/24).

- There were no material changes to the 2022/23 Code resulting in any meaningful alteration in accounting policies.

Looking further ahead;

- Adoption of IFRS16 – Leases. The adoption of this standard was originally scheduled to be from the 1st April 2020 (for the 2020/21 financial year). Due to the impact of the COVID-19 pandemic and external auditor market, it has been subsequently deferred to 1st April 2024 [for 2024/25 accounts]. The Authority has yet to quantify the potential impact of this adoption. Under IFRS 16 there will be no distinction between Finance and Operating Leases. All leases-in will come with a 'right of use' assets and corresponding liabilities being recognised on the council's balance sheet for all leases of more than a year's duration. This will bring all such leases within the scope of the statutory capital accounting framework for authorities and will increase the Capital Financing Requirement. However, regulations will ensure that the total amount chargeable to the General Fund for former operating leases will match the actual payments due under the leases.

It is unknown at this time as to whether the above amendments will have a material effect on the Authority. Subsequent years' Statement of Accounts will detail any material change in accounting policy.

STATEMENT OF ACCOUNTS 2022/23

TECHNICAL ANNEX F

GLOSSARY OF TERMS

Terms Used	Definition of Terms
Accrual	The accruals concept requires that the cost or benefit of a transaction is shown in the period in which the goods or services are received or provided, rather than when the cash is paid or received.
Actuarial Basis	The estimation technique applied when estimating the liabilities to be recognised for defined benefit pension schemes in the financial statements of an organisation.
Amortisation	The term used to describe the charge made for the cost of using intangible assets. The charge for the year will represent the consumption of economic benefit.
Asset	Right or other access to future economic benefits.
Budgets	A statement of the Authority's forecast spend - i.e. net revenue expenditure for the year.
Capital Expenditure	Expenditure on the acquisition of a non-current asset or expenditure that adds to and not merely maintains the value of an existing non-current asset.
Capital Grant	A grant that is intended to fund capital expenditure.
Capital Receipts	Proceeds or money received from the sale of land or other capital assets.
Comprehensive Spending Review (CSR)	A governmental process in the carried out by HM Treasury firm expenditure limits and, through public service agreements and define the key improvements that the public can expect from these resources.
Contingent Liability	A condition which exists at the Balance Sheet date, which may arise in the future but where the outcome will be confirmed only on the occurrence or non-occurrence of one or more future events.
Defined Benefit Scheme	Also known as a final salary scheme. Pension scheme arrangement where the benefits payable to members are determined by the scheme rules. In most cases, there is a compulsory members' contribution but over and above this, all costs of meeting the quoted benefits are the responsibility of the employer.
Depreciation	The measure of the wearing out, consumption, or other reduction in the economic life of a fixed asset, whether arising from use, passage of time or obsolescence through technological or other changes.
De-recognition	The process upon which assets are no longer deemed to be controlled by the Authority either by sale, demolition or any other form of disposal.
Earmarked Reserves	Reserve balances that have been set aside for future spending in a specific service area.
Exceptional Item	Events which are material in terms of the Authority's overall expenditure and are not expected to recur frequently or regularly.
Fair Value	Usually, the amount that would be paid for an asset in an active market. However, where there is no market for a certain asset e.g. a fire station, other methods to determine fair value are used.
Finance Lease	A method of acquiring non-current assets where under the lease agreement all the risks and rewards of ownership of a fixed asset are substantially transferred to the Authority, in return for rental payments to the legal owner of the asset.
Non-Current Assets	These are tangible assets used by the Authority in the provision of services that yield benefits to the Authority for a period of more than one year.
General Fund Services	This comprises all services provided by the Authority. The net cost of General Fund services is met by Council Tax, Government Grants and Non-Domestic Rates.
Historic Cost	This represents the original cost of acquisition, construction or purchase of a non-current asset.
IFRS	'International Financial Reporting Standards' (IFRS) are statements issued by the International Accounting Standards Board (IASB) that seek to ensure consistency in the treatment of accounting issues.
Impairment	A reduction in the value of a non-current asset caused by general changes in market values or consumption of economic benefits.
Intangible Assets	Non-Current Assets which do not have physical form, such as software.
Liabilities	An obligation to transfer economic benefits.
Materiality	Materiality is an expression of the relative significance or importance of a particular matter in the context of the financial statement as a whole.
Minimum Revenue Provision	This is the minimum amount that must be charged to the Authority's Comprehensive Income and Expenditure Statement each year to provide for the repayment of loans used to finance capital expenditure. The minimum amount is a percentage of the total Capital Financing Requirement.
Net Current Replacement Cost	This represents the cost of replacing or recreating a particular asset in its existing condition and in its existing use. That is the cost of replacing an asset, adjusted to reflect the current condition of the existing asset.
Net Realisable Value	The open market value of an asset in its existing use less any expenses incurred in realising the asset.
Non-Domestic Rates	These are business rates collected locally by the Authority but paid into a national pool. The rates are subsequently redistributed by Central Government as a grant to fund local authority services.
Operating Lease	A lease other than a finance lease.
Operational Assets	These are non-current assets held and occupied, used or consumed by the Authority in the direct delivery of those services for which it has a responsibility.
Precepts	The proportion of total Council Tax that is due to local parishes and various authorities e.g. the Police, Fire and Civil Defence Authorities and which is collected on their behalf by the Authority.
Provisions	Potential costs that the Authority may incur in future years, based on a past event which is likely to be incurred and a reliable estimate can be made.
Public Works Loan Board	A Government agency that provides long term loans to local authorities at interest rates lower than prevailing market rates.
Recharges	The transfer of costs within the Authority from one account to another to reflect work undertaken on behalf of another service.
Recognition	The process upon which assets are deemed to belong to the Authority either by means of purchase, construction or other form of acquisition.
Reserves	Revenue reserves are amounts set aside from balances to meet specific items of future expenditure. Certain other reserves are kept to manage the accounting processes for non-current assets and retirement benefits and do not represent usable resources for the Authority.
Revenue Contributions	A method of financing capital expenditure through the Comprehensive Income and Expenditure Statement.
Revenue Expenditure	This represents day to day running costs incurred in the provision of Authority services. Such costs include employee costs and supplies and services.
Revenue Support Grant	A grant paid to the Authority by Central Government to finance the Authority's general expenditure 'needs' and not specific services, after taking into account the level of Council Tax and NNDR income.
